

COLLEGE LEVEL EXAMINATION PROGRAM

The College Level Examination Program (CLEP) is designed to be a means through which recognition, academic credit, and placement may be given for less conventional forms of educational experience. Those who may have reached a college level of education through home or correspondence study, on the-job training, television courses, or by other means may take the CLEP examinations, which are offered by the College Entrance Examination Board. They are now offered only as computer-based tests and are available through Testing Services on campus.

Within the restrictions of systemwide policy, this university awards up to 6 units of credit for successfully completed CLEP examinations. Such credit is applied to the total units required for the baccalaureate degree, but it is not applied to the General Education requirement. Not all CLEP examinations are acceptable under system policy. It is the responsibility of the student to check with the appropriate department to determine whether it accepts CLEP credit. This should be done prior to taking the CLEP exam.

Credits earned through CLEP are included among the maximum of 30 units of Credit by Examination that may be credited toward a bachelor's degree. For additional information, call Testing Services, 559.278.2457.
